**RE: Windy Edge to Five Forks Transmission Line Reliability Project**  
**Grading Permit number: GRA-006604-2021**  
**Contract number: 52560**  
**Issue Date: 11/02/2021**  
**Plan & Permit Expiration Date: 09/30/2024**

Dear Mr. Kappler:

The grading permit has been executed for the above project and will expire as noted above. This permit will be issued at the pre-construction meeting.

A pre-construction meeting may be scheduled for this project provided all other necessary permits have been obtained including but not limited to storm water management, water quality, access, utility, etc.

To schedule a pre-construction meeting, contact Michael Davies at the Bureau of Construction Inspections at 410.638.3217, ext. 2434, or [mtdavies@harfordcountymd.gov](mailto:mtdavies@harfordcountymd.gov) 48 hours prior to starting any construction activity.

Sincerely,

Valerie Foster  
Permit Review Supervisor

## ENGINEERING - ACCESS PERMIT REQUIREMENTS

---

**These Construction Notes shall be followed and are a condition of this Access Permit.**

1. This Access Permit grants the permittee the right to construct the described work within the County Right-of-Way only to the extent the construction does NOT interfere with easements or rights held by others. Permittee shall ascertain and comply with any such restrictions or requirements in addition to the requirements of this Permit.
2. All construction shall conform with the Detail provided with this Permit and any additional requirements imposed by the Department of Public Works. Harford County reserves the right to refuse to issue any additional permits to the Permittee, including, but not limited to, Use and Occupancy, and/or to suspend previously issued permits if Permittee fails to comply.
3. Access Permittee shall comply with all applicable provisions of the Harford County Code and Road Code. Responsibility for compliance may not be transferred via any conveyance, or lack of conveyance.
4. Permittee shall return Right-of-Way to the condition existing (compacted and stabilized) prior to construction. Details on construction, lift size, compaction, and materials usage must meet Harford County Code
5. Work Zone traffic control to be in accordance with the M.U.T.C.D.
6. Access Permittee shall contact "Miss Utility" ( 1-800-257-7777) prior to any work, as required by law.
7. All work under this Permit shall maintain minimum clearances from all Water/Sewer/Storm Drain/ Other Utilities and Structures. Specifically, one (1) foot of vertical clearance and five (5) feet of horizontal clearance is required.
8. Permittee shall notify the Department of Public Works at least 48 hours prior to any construction. A pre-paving inspection is required prior to final paving. Plastic/Poly type pipes are not approved for Accesses. Additional inspections are required as indicated. Failure to obtain required inspections will delay occupancy approval.
9. Additional Special Requirements: \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

10. General Construction Requirements:

- a. **Any Permanent Construction** within the County Right-of-Way requires written permission from the Department of Public Works, prior to commencement of construction. Permanent Construction is defined as, but not limited to, any structure which is constructed of stone, block, brick, concrete, masonry, steel, wood, etc, including mailbox housings and/or lightpost and includes Plantings with growth potential greater than 3 feet.
- b. All Accesses constructed within Harford County are required to be paved per Harford County Road Code,
- c. All construction must meet the minimum Sight Distance requirements within Harford County Road Code,
- d. All construction must be approved by the Department of Public Works prior to Use & Occupancy Approval.

Should any questions arise regarding the requirements of this permit, (i.e., requesting any changes, making required notifications prior to construction) please contact the following office for assistance:

3. Access Permittee shall comply with all applicable provisions of the Harford County Code and Road Code. Responsibility for compliance may not be transferred via any conveyance, or lack of conveyance.
4. Permittee shall return Right-of-Way to the condition existing (compacted and stabilized) prior to construction. Details on construction, lift size, compaction, and materials usage must meet Harford County Code
5. Work Zone traffic control to be in accordance with the M.U.T.C.D.
6. Access Permittee shall contact "Miss Utility" ( 1-800-257-7777) prior to any work, as required by law.
7. All work under this Permit shall maintain minimum clearances from all Water/Sewer/Storm Drain/ Other Utilities and Structures. Specifically, one (1) foot of vertical clearance and five (5) feet of horizontal clearance is required.
8. Permittee shall notify the Department of Public Works at least 48 hours prior to any construction. A pre-paving inspection is required prior to final paving. Plastic/Poly type pipes are not approved for Accesses. Additional inspections are required as indicated. Failure to obtain required inspections will delay occupancy approval.
9. Additional Special Requirements: \_\_\_\_\_  
\_\_\_\_\_

10. General Construction Requirements:

- a. **Any Permanent Construction** within the County Right-of-Way requires written permission from the Department of Public Works, prior to commencement of construction. Permanent Construction is defined as, but not limited to, any structure which is constructed of stone, block, brick, concrete, masonry, steel, wood, etc, including mailbox housings and/or lightpost and includes Plantings with growth potential greater than 3 feet.
- b. All Accesses constructed within Harford County are required to be paved per Harford County Road Code,
- c. All construction must meet the minimum Sight Distance requirements within Harford County Road Code,
- d. All construction must be approved by the Department of Public Works prior to Use & Occupancy Approval.
